

VentureCycle Studio Brand Production Record

A full brand identity and asset library was produced for VentureCycle Studio across roughly three weeks (May 30 – Jun 19, 2026). Work moved from research and logo concepts through a documented brand system, then into a deep library of print, digital, and conversion assets. The deliverables: a dual-color logo system (15 variants), a 10-page brand guidelines document, a 4-variant business card set, ~20 self-contained HTML templates, a high-converting landing page, an 8-page lead-magnet PDF, and a tri-fold brochure (drafts pending approval).

15 Logo Variants turquoise + orange systems	10 Guideline Pages full brand book	~20 HTML Assets templates + pages	7 Phases logo → applications
---	---	--	---

I. Brand Foundation

1. Decisions locked

VentureCycle Studio is the client-facing brand; Ahmed Issam Ramadan is the founder identity, not the logo. A dual-color primary system was approved over a single-mark approach.

- Turquoise (#1ABC9C) — established digital identity, evolved from the existing V + cycle + arrow logo.
- Orange (#E6AA5B) — MENA-focused warm variant; central accent kept per the brief.
- Concept A (Islamic geometric) and Concept D (bilingual) prioritized for MENA + AI positioning.
- Concept B ("VC" lettermark) deprioritized — reads as venture capital.

2. Positioning

AI automation and workflow systems for Arabic-speaking MENA businesses. Bilingual throughout (LTR English + RTL Arabic), minimalist dark-on-light aesthetic, Islamic-geometric

visual accents.

II. Brand System

1. Color FINAL

Two primaries, two secondaries, plus neutrals.

ROLE	COLOR	HEX
Primary	Turquoise	#1ABC9C
Primary	Orange	#E6AA5B
Secondary	Deep Purple	#6C5CE7
Secondary	Teal Blue	#00B8D4

2. Typography FINAL

Inter (English) + Cairo (Arabic). Hierarchy: 48px hero → 36px sections → 24px subsections → 16–18px body.

3. Guidelines document

FINAL

10-page brand book at 2K resolution. Cover, logo system, logo variants, color, typography, visual language, usage rules, applications, brand voice, contact.

III. Logo Library (15 Variants)

Variant inventory FINAL

VARIANT	BEST USE
Turquoise / Orange on White	Standard, digital + print
Turquoise / Orange on Dark	Dark mode, video, slides
White / Black Monochrome	Single-color print, engraving
Horizontal lockups (T / O)	Headers, email signatures, banners
Vertical lockups (T / O)	Business cards, social profiles
Bilingual horizontal	MENA materials, partnerships
Simplified icons (T / O)	Favicons, avatars, <64px
Islamic geometric mark	Cultural events, campaigns
Bilingual badge	Bilingual / regional use

IV. Applications Produced

1. Business cards FINAL

4 variants at 3.5" × 2", print-ready 2K. Turquoise (digital), Orange (MENA), Dark Premium (Islamic pattern), and a vertical format. Recommended stock: 350gsm matte; optional spot UV on logo.

2. HTML asset library FINAL

~20 self-contained, single-file HTML templates with inline CSS, bilingual-ready, no external dependencies except a swappable logo placeholder.

CATEGORY	TEMPLATES
Communication	Email signature, newsletter
Business docs	Proposal/quote, invoice, meeting notes
Project mgmt	Status report, timeline/Gantt, onboarding checklist
Forms	Maintenance request, change request
Documentation	SLA, technical docs, knowledge base article
Marketing	Case study, letterhead, one-pager service sheet
Social / slides	LinkedIn / X / Instagram banners, 16:9 slide set

- Banner specs: LinkedIn 1584×396, X/Twitter 1500×500, Instagram 1080×1080.

- Letterhead: A4, print-safe 20mm margins, @media print rules.
- Web page mockups also delivered: landing, portfolio, services, contact.

3. Landing page FINAL

High-converting single-page campaign — goal: book a discovery call. Eight sections (Hero → Problem → Solution + stats → Services → Social proof → Process → FAQ → Final CTA + form). One repeated CTA, 4-field form, A/B headline variants in comments, mobile-first.

4. Lead magnet FINAL

8-page "MENA Business Automation Checklist" PDF + gated download page with exit-intent popup. Cover, intro, two workflow pages (15 workflows), priority matrix, ROI calculator, next steps, back cover. Ships with a 5-email nurture sequence outline.

5. Tri-fold brochure

IN REVIEW

Interior + exterior graphic drafts generated; awaiting approval before 3D mockups. Corporate intro + service overview structured across cover, teaser, challenge, solution, results, and contact/QR back panel.

V. Standardized Placeholders

Swap before deploy

ACTION

All HTML assets share the same placeholders. Search-and-replace once per file.

PLACEHOLDER	REPLACE WITH
LOGO_URL_HERE	Real logo URL
FORM_ENDPOINT_HERE	Form handler (Formspree, etc.)
ahmed@venturecycle.studio	Real email
+20 XXX XXX XXXX	Real phone
Cairo, Egypt	Real location
Testimonials / credibility logos	Real client assets

VI. Open Items

Next steps

- Approve brochure drafts → generate 3D mockups (standing, flat-lay, handheld, environmental).
- Combine the 8 checklist images into a single PDF; wire up form + email delivery.
- Populate real testimonials, credibility logos, and contact details across all templates.
- Outstanding application requests: full stationery set, presentation deck, print marketing, social ad set.
- Note: logo and brochure assets are image-based (Nano Banana); vector source files were not produced.
